

## **NHPA II COVID-19 General Guidelines & Procedures For Reopening Fall 2020**

Due to the COVID-19 pandemic, NHPA II will be opening classes to a limited capacity while continuing our online virtual classes. There is nothing more important to us than keeping our dancers as well as their families and the community healthy and safe. We will be implementing increased health and safety measures as we start to get back into the dance studio. Detailed guidelines are coming soon along with complete instructions on “How To” enter the studio and our policies on safety!

**Below are “GENERAL” policies and procedures NHPA II will be following. We have formed these guidelines in accordance with the CDC and state of Texas regulations to keep our students, staff, and families safe during this time.**

1. Masks are required in the space at **ALL TIMES** and are **MANDATORY**. Please replace masks regularly when they are wet and launder them at home after each wear in the studio. **If you need a break, please notify the teacher.**
2. Dancers will get their temperature taken upon entering the studio. If a dancer has a temperature of 100.4 degrees or above they will be asked to leave.
3. Dancers will be asked to sanitize their hands **upon entering the building.**
4. Dancers will then proceed to their designated dance area and will remain in their marked 6-9ft. “dance space” throughout class.
5. Dancers will place their dance bag and water in the designated area **next to** their dancing space.
6. Dancers will avoid touching surfaces. Teachers will be enforcing extra washing and/or sanitizing hands throughout class time.
7. When class is finished, the dancers will proceed to sanitize their hands when exiting the studio.
8. Dancers need to come to the studio dressed for class to avoid using the bathrooms to change clothes.
9. Dancers must **ALWAYS** keep a distance of 6 feet between others.
