## **What is the NHPA II Dance Company....**

**NHPA II provides an opportunity to serious dancers, ages 7-18yrs, who are interested in taking their dance training to the next level. The NHPA II Dance Company is a competition/performance group program that has been well-established in the Houston area, as well as across Texas, by providing the next generation of up and coming dance artists extra performance opportunities each season. Being a member of the Company allows these young dancers to develop their technique and artistry with more focus, intensity, and at a higher level of commitment which promotes accelerated progress in the art of dance each season.**

**NHPA II Dance Company rehearsals are held consistently throughout the season on weekdays and weekends, starting mid-late September and wrapping up in mid-July.**

**Performance opportunities include: 2 regional competitions, the Annual NHPA II Recitals, 1 Nationals competition in June/July.**
